Only Pro Honda offers oils and chemicals designed to the same exacting standards as your Honda motorcycle. Nobody offers a more comprehensive line of motorcycle-specific oils and chemicals than Pro Honda®. And nobody else crafts these products to the industry’s most demanding standards - Honda’s. Everything Pro Honda offers - from 2 stroke oil, suspension fluids, coolant, brake fluid, foam filter oil, chain lube and other vital fluids - are formulated to be the best. They’re what factory Honda race teams depend on to win. And nobody wins more national cycle championships than Honda. Honda builds its motorcycles to the toughest engineering standards in the world. Pro Honda formulates its oils and chemicals to those same high standards to keep your Honda running at its maximum performance. They’re the best motorcycle specific product you can by. And they are available exclusively at your Honda dealer.
CHEMICALS & MAINTENANCE

This all-in-one kit was designed specifically for the do it yourselfer. It is simple, convenient and less expensive than purchasing individual components. Each kit contains the appropriate quantity of Pro Honda Oil, one Genuine Honda oil filter, one or two drain plug washer, a disposable funnel and instructions.

1. **PRO HONDA HP4S (FULL SYNTHETIC 10W-30)**
   CB67161
   Honda’s HP4S Synthetic Motorcycle Oil is engineered by Honda R&D for severe duty and racing applications. This extreme duty formula is designed to offer maximum wear protection during both cold start period and high rpm use. Its shear stable polymer additives provide smoother shifting and reduced friction and in turn affords better fuel economy, reduced temperatures and minimized wear.

2. **PRO HONDA GN4**
   CB66840 - 20W50
   CB66836 - 10W40
   CB67000 - 10W30
   Honda set the standard for motorcycle oil when it introduced GN4 in 1975. We selected the highest quality base stocks, and created an additive package specifically designed for the unique requirements of motorcycle engines. We still do. Constant testing and development has given today's GN4 even better shear-resistance, viscosity stability and cleanliness to meet the requirements and stresses of a new era of engine technology.

3. **PRO HONDA GN2**
   CB66842
   Pro Honda GN2 is the only oil that has been tested and approved by Honda R&D for all liquid-and-air cooled 2 stroke Honda motorcycles, scooters and ATVs. Its unique clean burning formula reduces exhaust smoke, carbon buildup and varnish deposits, and helps prevent spark plug fouling, ring sticking and exhaust plugging. GN2’s superior lubrication extends service life for piston rings and bearings, and helps protect against rust and corrosion.

4. **PRO HONDA HP TRANS OIL**
   CB66841
   High-performance racing transmission oil specially formulated for all Honda CR® and intense pressure at their teeth can lead to metal to metal contact. HP Trans Oil offers ultra-high film strength and shear stability to minimize transmission wear, while its high thermal stability prevents foaming and premature oil breakdown. Special anti-friction additives allow smoother shifting, while minimizing drag and power loss. Anti-shear additives increase clutch life, reducing clutch slippage.

CHEMICALS & MAINTENANCE

1 PRO HONDA HP FORK OIL 5W
CB66955
Friction-modified formula specifically engineered for the latest in suspension technology from Showa and KYB®. Minimizes friction and cavitation, providing optimum performance for all Honda inverted-fork suspension systems.

2 PRO HONDA FORK & SHOCK OIL 10W
CB66837
SAE 10 fork & shock oil is specially formulated to prevent foaming, rusting, oxidation and premature wear. Because of seal swell additive, cracking and drying of seals is eliminated. It will not cause gum or varnish build-up and will not affect interior components of forks.

3 PRO HONDA FORK & SHOCK OIL 20W
CB66938
SAE 20 fork & shock oil is specially formulated to prevent foaming, rusting, oxidation and premature wear. Because of seal swell additive, cracking and drying of seals is eliminated. It will not cause gum or varnish build-up and will not affect interior components of forks.

4 HP COOLANT (1 Litre)
08C50-C321S01
Exclusive formula developed by Honda R&D and specifically designed for use in aluminum engines. HP Coolant uses high-tech organic corrosion inhibitors instead of more commonly used silicate corrosion inhibitors. Unlike silicates, HP Coolant’s organic corrosion inhibitors won’t gell and cause radiator plugging. They are also more stable for a longer shelf life and do not act as abrasives to mechanical water-pump seals which may cause premature failure to seal.

5 PRO HONDA FUEL STABILIZER
CB66940
Genuine Sta-Bil® formula eliminates the need to drain fuel for engines stored longer than 60 days. Prevents rust, corrosion and fuel deposits.

6 PRO HONDA HP DOT4 BRAKE FLUID
08203-0004
High-temperature formula for heavy-duty or racing applications. Used in all hydraulic brake and clutch systems requiring DOT 3 or DOT 4.

For more information visit www.honda.ca
PRO HONDA HP4
CB66839
Pro Honda HP4 is the result of a revolution in motorcycle oils: the establishment of performance standards for 4-stroke motorcycle oil by the Japanese Automobile Standards Organization (JASO). Naturally, Honda R&D contributed to the JASO specifications, to ensure they would be up to Honda's most stringent requirements. Thanks to JASO standards, HP4's extraordinary additive package now has better anti-foaming qualities, higher viscosity index for stability over a broader temperature range, and even greater shear stability than HP4M oil. Naturally, HP4 blends the heat stability and shear resistance of synthetic oil with mineral oil's natural lubricity for the highest quality 4-stroke motor oil you can buy. What's more, Pro Honda’s HP4 is approved for use in all Honda motorcycles and ATVs.

PRO HONDA HP4 COLD WEATHER ATV OIL
CB66956
The Ultimate in Performance and Protection, HP4 0W30 ATV oil is a super premium oil formulated in the tradition of excellence by Honda Research & Development specifically for the cooler Canadian climates. This Hi-Performance Synthetic/Petroleum Oil without Moly sets a new standard for premium 4-stroke ATV oil. Pro-Honda ATV oil is approved for use during break-in period, and exceeds all new Honda ATV warranty standards. Exclusive additives give maximum wear and protection during the critical cold start period, and during high RPM use, and better low temperature fluidity for easier cold weather starting.
CHEMICALS & MAINTENANCE

1 PRO HONDA HP4M
CB66838
It might come in a silver container, but rest assured Pro Honda’s HP4M is the same 4-stroke engine oil customers have come to trust and depend upon. HP4M benefits from years of testing and development, ensuring its status as a premium motorcycle oil. A synthetic/mineral oil blend that gets the best qualities of both, HP4M also features a comprehensive additive package and a friction-reducing molybdenum compound for smoother shifting and maximum fuel economy. HP4M: the Pro Honda Oil good enough to win a multitude of roadracing championships as well as the grueling Baja 1000.

2 PRO HONDA HP2
CB66837
Pro Honda HP2 is simply the finest 2-stroke oil money can buy. Premium synthetic base stocks with high film-strength give maximum wear-protection, while allowing a 32:1 mixture ratio. The extremely clean-burning formula minimizes carbon deposits, extends spark plug life, and maintenance on Honda Power PortM and ATACTM systems. Special additives minimize friction for cooler running, maximum horsepower and quicker throttle response.
PRO HONDA WHITE LITHIUM GREASE
CB66943
- Heavy-duty general-purpose lubricant
- Sets up quickly, leaving a thick coating
- Ideal for carburetor and throttle linkages, sidestands and lever pivots

PRO HONDA GLASS CLEANER
CB66941
Quick-foaming formula cleans glass, mirrors, headlights and chrome surfaces without streaking. For cleaning windows and mirrors on cars, motorcycles and boats. It is also an excellent cleaner for household windows, mirrors, glass table tops, ceramic tile, Formica tops, porcelain, vinyl, television screens and enamel surfaces.

PRO HONDA CONTACT BRAKE CLEANER
CB67160
- Removes grease, oil and contaminants from electrical components and brake systems
- Won’t harm most plastic, rubber or painted surfaces
- Dries quickly and leaves no residue on forks

PRO HONDA CHAIN LUBRICANT
CB66944
- Contains moly for superior lubrication
- Dries fast, leaving a protective film
- Repels dirt and water, and offers superb rust-protection
- Approved for use on both O-ring and standard chains

PRO HONDA RUST PENETRANT
CB66981
- Rust Penetrant is a general purpose lubricant and penetrant that will penetrate rust, lubricate surfaces and parts that are tight and binding and repel moisture from surfaces
- Penetrates and helps loosen rusted fasteners
- Leaves a thin lubricating film that protects against wear and corrosion
- Use for automotive, marine, shop and household applications

PRO HONDA SPRAY CLEANER & POLISH
Exclusive Honda formula – superior performance at an economical price
- Complete motorcycle detailer in a can
- Cleans road grime, grease and bugs without water
- Polishes paint, chrome, glass and clear plastic
- Protects vinyl, plastic and rubber
- Blocks UV rays to reduce fading and cracking
- Repels water and makes it bead up like on a wax finish
- Anti-static properties reduce dust buildup

Available in CB66935 219g and CB66946 396g containers

CHEMICALS & MAINTENANCE

1. PRO HONDA HONDBOND 4
   08717-1194
   • Semi-drying liquid gasket
   • Seals irregular surfaces with a tough, elastic film
   • Solvent based for easy removal; resists gasoline

2. PRO HONDA HANDGRIP CEMENT
   08712-0001
   • Required when installing all PVC type handgrips
   • Ideal for use on rubber handgrips, footpeg covers, plus kickstart and shift
   • Pedal rubbers

3. PRO HONDA HONDLock 2HT
   08713-0004
   High-Temperature red-coloured threadlock for medium-torque fasteners in high-temperature applications, such as exhaust studs

4. PRO HONDA LITHIUM DIELECTRIC GREASE
   08798-9001
   • Non-conductive waterproofing compound
   • Insulates electrical connections and adheres to most surfaces, sealing out moisture, dirt and corrosion

5. PRO HONDA MOLY 60 GREASE
   08734-0001
   • New 60-percent moly grease formula
   • Contents are solid and will not separate at room temperature
   • Recommended for gears, bearings and other high-pressure/high-temperature applications
   • Use on Pro Link linkage where moly 45 is recommended

6. PRO HONDA WEATHER STRIP CEMENT
   08712-0002
   • Permanent, waterproof cement that remains elastic after drying
   • Adheres to rubber, plastic and metal
   • Glues in loose O-rings during reassembly
   • Excellent for vinyl and leather repairs

For more information visit www.honda.ca
1. **Optimate 3+ Honda Battery Charger by TECMATE®**
   **31670-BMS-000**
   As simple as 1-2-3: Just connect the Honda Battery Charger to your battery and the 5-stage program does the rest automatically and safely. Delivered with two interchangeable connection sets: clamps for bench charging and a weatherproof snap cord with protection fuse and eyelet terminals for permanent attachment to the battery.

2. **Honda TestMate Mini by TECMATE®**
   **31670-BMS-CB67076**
   The Honda TestMate Mini tests battery voltage, cranking power and charging system operation of 12V batteries. Weak Batteries and Charging systems anomalies are identified in Seconds.

3. **Honda Stand Pad**
   **CB67170**
   Honda branded kickstand pad provides extra stability for your motorcycle on hot summer days. Keeps your bike from sinking into the hot asphalt. Made out of polycarbonate plastic, available in Red.
